Personal Profile

Passionate Computer Scientist from City, University of London, in Artificial Intelligence.

I recently completed a Software development Bootcamp at Just IT where I learnt HTML, CSS and JavaScript consolidating my Front-end skills. I also enjoyed Engaging in various structured coding practices, from core foundation to advanced techniques.

I have secured the readiness to embark on large-scale projects.

Education and IT Training

05/24-08/24	**Just IT Training Ltd, London**
	Digital Skills Bootcamp: Software Development
	Twelve weeks intensive bootcamp covering the fundamentals of Web and Software development.
	Front-end: HTML, CSS, JavaScript
	Back-end: Python, MySQL, NoSQL
09/12-05/15	**City, University of London**
BSc (Honours)	**Computer Science with Artificial Intelligence**
Core Modules:	Artificial Intelligence, Computation and reasoning, Software Agents Theory of Computation
Languages:	Java, MySQL
Final Year Project:	*Stock Market Analysis using Neural Networks.*
09/10-09/11	**Cavendish College, London**
BTEC HND Level 4:	**Computing and Systems Development**
	System Analysis and Design, Procedural Programming, Computing Systems, Database Design Concepts, Management of Project, Business Skills E-Commerce
09/97-06/98	**College Alfred Saker, Douala-Cameroon**
GCSE:	Maths, Physics, Chemistry

IT Skills

Software Development Skills: Java 6 – C/C++

Web Technology: Python, HTML5, CSS3, JavaScript

Core Programming Languages: Java

Projects: Neural Networks – I built a Stock Market analysis program using Recurrent Neural Networks with Python.

Employment History

01/21-12/21   **Inetum, Cameroon**
Junior Application Analyst – Apprenticeship

- Always on time for meetings with the client, my colleague, and the manager.
- Listening diligently to the client's needs, and reformulating technical aspects of the product.
- Short, concise, and focused on the customer needs professionally.
- Excellent collaboration with the in-house developers and financial analysts' consultants.
- Proficient in non-functional and functional system requirements modelling and refinement.
- Proficient use of Magic Draw Designing tool, for architectural and component-based modelling.

07/20-08/20   **Internship Experience UK – On Demand by Bright Network, London**
Certified Internship

- Completing tasks on time with expected components and knowledge.
- Good communication with the training staff at hand.
- Expressing and articulating my point of view well with substantial examples.
- Collaborating efficiently with members of my team.
- Discussing cutting-edge technologies and how we can use them and maximise productivity.
- Working well on individual assignments.

01/17-03/17   **iOS Consultant at The App Experts, London**
iOS Trainee

- Arriving on time at work and meetings and completing daily rapport promptly.
- Preparing to face client-side situational environments.
- Proven, good, and reliable communication of both technical and non-technical competencies.
- Excellent collaboration with my colleagues, and discussion of concepts and solutions.
- Switching from core programming language to a whole new programming paradigm.
- Understanding the material, and concepts and adapting them to relevant scenarios.

Interests and Achievements

I like reading and practicing new concepts and scenarios in IT, to strengthen my coding gym routine while improving my transferable skills. That helps me manage various technologies simultaneously, and efficiently and eases adaptability to change and continuous learning. I enjoy socials, gym activities, watching documentaries, and playing board games to boost my creativity and productivity.
